She has rocked crowds from coast to coast while still maintaining an organic, original appeal.

Growing up during the tail-end of Hip-Hop's Golden Era, ThatGirl was heavily influenced by the consciousness which characterized this period in music. A time of jazz, funk, and soul samples. A time of street poetry and uncensored politics. Further cultivated amidst the eclectic San Francisco Bay Area art and music scene, eventually DJing became her main form of self-expression. Since then, ThatGirl has been moving dancefloors with an exquisite blend of beats, spanning across a variety of music genres, old and new.

She has rocked crowds from coast to coast while still maintaining an organic, original appeal. Using music as a tool for transformation, she first gained widespread attention with the release of "Summer Love", a mix which seamlessly covered multiple genre's of music while still maintaining a deeply emotive theme and rhythmic consistency. Reveling in the type of music that brings the listener back to the soul, she paints musical soundscapes of raw emotion, playing sets that convey pure feeling, where time becomes nonexistent and the spirit becomes captivated by the groove.

I've hired ThatGirl continuously throughout the years for her ability to mix the old with the new and keep the crowd engaged. She digs deep with her selections to introduce new music and is also able to party rock with familiar anthems. Her look and sound complement my brand. If you're looking to raise the bar for your events and branding, you definitely need to have ThatGirl on your roster.

Thomas Aguilar,

I've had the pleasure of working ThatGirl for about 6 years. Her talent, diverse fan base, and beauty as an artist have valuably contributed to the longevity of my party. I affectionately call ThatGirl "The Bridge" as both her persona and sound defies any pigeon-holing and bridges the gap between smooth and edgy, gay and straight, commercial and avant-garde. Music aficionados, dancers, club kids, and lovers alike find their unique soundtrack with Melanie's soul-vibrant selections. House, Hip-Hop, Dancehall, R&B, Trap, Underground; whatever the genre or occasion, her sound provides the crowd with a silky canvas to create memories from. Whenever Melanie steps behind the turntables I am assured the guests are in for an uplifting experience. Her DJ mixes are also further testament to Melanie's talents. She has a real knack for setting the mood whether it be soothing down or hyping up, she finesses crowd control like a true professional.

Masaye Waugh,
founder of "Peaches Lady DJ Crew"

Melanie was phenomenal! Would rate here a 10 out of 10! Not only was she excellent to work with leading up to the event, she was fantastic the day of the wedding! She was very professional throughout the entire process, and organized several meetings along the way to make sure we were all on the same page. On the day of the event, the music she selected was even better than I could have imagined! She really listened to what we wanted, and somehow timed each song perfectly to the ceremony. When it came time for the receptions, she had the dance floor was packed the entire time! Our guests were even begging her to play longer! We were beyond thrilled with Melanie, and have recommended her to everyone I know looking for a DJ!
